

**servizi
LOGISTICI**

The History

The Company was founded in 2014. Since 2015, through the rent of the historic logistics company Log Service Europe founded in 1996, Servizi Logistici manages its activities throughout the national territory. In 2018 Servizi Logistici definitely obtains all activities of Log Service Europe.

The know-how acquired during these years has been totally transferred in Servizi Logistici. Our knowledge is closely about the warehouse management and the distribution processes with a focus on the manage and control of household appliances sector, consumer goods sector and food industry.

The company is able to provide integration services and customer interface services for traditional activities and activities linked to e-commerce.

The Company is certified ISO 9001 and in all our warehouses there are dedicated areas to manage dehydrated food products because they are endowed of BIOS certification e di HACCP manual.
